

The LEAP Pilot Network

Pilot your
product
in expert-
supported
classrooms –
gain access,
visibility and
feedback

Want exposure to Chicago schools, educator feedback, and valuable implementation and outcome data?

Pilot your product with the LEAP Pilot Network!

ABOUT THE PILOT NETWORK

LEAP's flagship program connects educators and edtechs to implement and evaluate personalized learning practices and solutions in classrooms, and includes:

- Exposure to schools in the:
 - Third largest public school district
 - Largest archdiocese district
 - Charter school networks
- High-fidelity implementation support, engagement with local education leaders, and product feedback

BENEFITS

Companies selected to pilot will receive in-depth product feedback:

- Reports on student and classroom outcomes
- Qualitative and quantitative feedback from real classrooms
- Third-party evaluation of product implementation and outcomes

As well as invitations to:

- Present at showcases and other events providing additional visibility locally and nationally
- Attend a growing suite of programs for edtech companies

OUR RESULTS

Following our 2014-2015 pilots:

- **Students gained an average of 1.07 additional points** over the control group on NWEA, a national student assessment
- **86 percent of schools adopted** their selected edtech product after piloting
- **100 percent of educators** would recommend the Pilot Network to their peers

REQUIREMENTS

To participate, companies must:

- Be selected by our world-class curation panel of experts:
 - Offer K-8 Math and ELA content programs that enable personalized learning OR
 - Offer competency-based tools or platforms that help teachers implement standards-based grading and/or support students in showing evidence of learning, receiving formative feedback, or pacing their own learning
- Provide an in-kind product license, training and regular support for participating teachers and schools throughout the school year
- Enable research on product efficacy via data tracking (and secure exchanges) around unique student/teacher usage, progress, etc.

ABOUT LEAP INNOVATIONS

LEAP Innovations is a Chicago-based nonprofit that connects innovation and education to reinvent our one-size-fits-all system and transform the way kids learn. We work directly with educators and innovators to discover and pilot personalized learning technologies and innovative practices in schools across Chicago, and scale our findings and best practices with partners across the country.

ABOUT PERSONALIZED LEARNING

At LEAP, we've developed the **LEAP Learning Framework** to define and guide our work with schools and educators around personalized learning. It is rooted in four core components:

- **Focused on the learner:** tailored to learners' individual needs, strengths and interests
- **Demonstrated by the learner:** learners progress based on demonstrated competency
- **Led with the learner:** helps learners take ownership of their learning
- **Connected for the learner:** transcends the classroom in meaningful and accredited ways, connected to families and communities
