

The LEAP Pilot Network

"Lexia is thrilled to be a partner in the LEAP Pilot Network. The experience has been invaluable, providing us with key feedback on educator needs. The Pilot Network has given us insight into how to improve our products and services to meet the needs of educators and help them better personalize learning for their students."

*- Nick Gaehde
President, Lexia Learning*

Pilot your product across Chicago with LEAP!

LEAP's flagship program connects educators and edtechs to implement and evaluate personalized learning practices and solutions in classrooms, and includes:

- ☀ Exposure to schools in the third largest public school district, largest archdiocese district, and charter school networks
- ☀ High-fidelity implementation support, engagement with local education leaders, and product feedback
- ☀ Reports on student and classroom outcomes
- ☀ Qualitative and quantitative feedback from a breadth of innovative classrooms
- ☀ Third-party evaluation of product implementation and outcomes

OUR RESULTS

- **Students in the 2015-2016 Pilot Network using a reading product gained an average of 2.94 test-score points** over the comparison group on NWEA, a leading national assessment
- **79 percent of schools adopted** their selected edtech product after piloting
- **100 percent of edtech partners** would recommend piloting with LEAP

CURRENTLY ACCEPTING APPLICATIONS FOR:

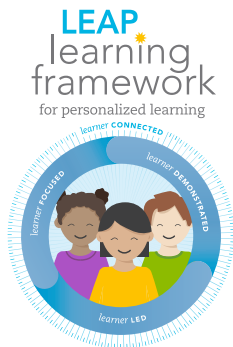

- K-8 ELA and Math content programs that enable personalized learning
- 9th grade ELA and Math (i.e., algebra) content programs that enable personalized learning

PILOT COMPANIES:

ABOUT LEAP INNOVATIONS

LEAP Innovations is a Chicago-based nonprofit that connects innovation and education to reinvent our one-size-fits-all system and transform the way kids learn. We work directly with educators and innovators to discover and pilot personalized learning technologies and innovative practices in schools across Chicago, and scale our findings and best practices with partners across the country.

ABOUT PERSONALIZED LEARNING

At LEAP, we've developed the **LEAP Learning Framework** to define and guide our work with schools and educators around personalized learning. It is rooted in four core components:

- **Focused on the learner:** tailored to learners' individual needs, strengths and interests
- **Demonstrated by the learner:** learners progress based on demonstrated competency
- **Led with the learner:** helps learners take ownership of their learning
- **Connected for the learner:** transcends the classroom in meaningful and accredited ways, connected to families and communities
